PROFESSIONAL SUMMARY

Experienced Full-Stack Web and Mobile Developer with four years of professional experience specializing in building scalable, secure, and high-performance applications. Proficient in both front-end and back-end technologies, including React, React Native, Next.js, TypeScript, Node.js, GraphQL, and MongoDB.

Passionate about writing clean, maintainable code and continuously embracing new technologies through freelance work and personal projects.

Commended for delivering projects ahead of schedule and creating high-security, SEO-optimized, and accessible applications for clients in banking, medical, real estate, insurance, and cyber security sectors.

WORKING EXPERIENCE

FULL-STACK DEVELOPER

Mar 2021 - Present | Radical Company | UK

- Developed scalable, high-performance web applications using React, Next.js, and TypeScript.
- Built and maintained back-end services with Node.js.
- Created cross-platform mobile applications using React Native.
- Developed high-security applications for clients in the medical, banking, insurance, and cyber security sectors.
- Optimized web applications for SEO and ensured accessibility compliance with WCAG standards.
- Worked closely with UI/UX designers to develop intuitive and user-friendly interfaces.
- Participated in client-facing problem-solving meetings, discussions, and daily stand-ups, effectively communicating technical concepts to non-technical stakeholders.
- Introduced CI/CD pipelines to streamline deployment processes.
- Automated testing procedures to enhance code quality and reliability.
- Initiated and led projects from conception to deployment.
- Guided and mentored development teams.
- Established coding standards and development protocols.

- **FREELANCING**

  2023 - Present

  - Initiated and led multiple full-stack projects from scratch, handling everything from planning to deployment.
  - Provided technical consultations to help clients understand project scopes and technical requirements.
  - Built responsive and user-friendly web applications using React, Next.js, and TypeScript.
  - Managed databases with MongoDB and implemented real-time features with Socket.io.
  - Deployed applications on AWS, setting up infrastructure-as-code for efficient scaling.
  - Implemented security best practices to protect against common vulnerabilities.
  - Conducted in-depth discussions with clients to thoroughly understand their needs and objectives.
  - Implementing a structured project management approach.

SKILLS
